SUMMARY

Software developer with 3 years of experience in Python and web development. Familiar with building REST APIs and working with databases. Looking to grow into backend and AI development roles.

WORK EXPERIENCE

Python Developer — Infosys Ltd, Hyderabad *Aug 2021 – Present*

- Developed REST APIs using Flask for an internal HR management system
- Wrote Python scripts to automate data extraction and report generation
- Worked with MySQL databases and wrote complex SQL queries
- Participated in Agile sprints and daily standups

Junior Software Developer — Wipro Technologies, Hyderabad *Jun 2020 – Jul 2021*

- Developed basic CRUD web apps using Django
- Fixed bugs and wrote unit tests for existing Python codebases
- Assisted senior developers with API integration tasks

PROJECTS

Student Grade Management System — Academic Project *2020*

- Built a Django web app for managing student grades with authentication and basic reporting
- Used SQLite for database and Bootstrap for frontend

Weather App — Personal Project *2022*

- Built a Python script that fetches weather data using an external API and displays forecasts

TECHNICAL SKILLS

Languages:

Python • SQL • HTML • CSS • JavaScript (basic)
